# Bolton Landing Hamlet Sustainability Plan

## To Bolton Residents and Businesses:

The Town of Bolton was recently awarded a Smart Growth Grant to complete a comprehensive analysis and plan development of the Hamlet of Bolton Landing. The project will result in the development of a master plan that will focus on land use, parking, streetscape improvements, underutilized building and spaces, pedestrian circulation and linkages, infrastructure, visual quality, and condition and function of public parks.

We are interested in your concerns and ideas. Please complete this questionnaire and drop it in the box at Town Hall or email, fax or mail it to the address below.

1. What do you like about Bolton Landing and what specifically do you want to preserve?
2. What are Bolton Landing's obstacles to long-term success?
3. What specific projects would you recommend to revitalize or improve the Hamlet and Lake George Waterfront?

For additional space please use the back of the sheet.
